

# Game of Pig

You need: a pair of dice

Goal is to be the first to reach 100. On your turn, roll the dice as many times as you like, keeping a running total of the sum. When you decide to stop rolling, record the total for that turn and add it to the total from the previous turns.

The catch: If a 1 comes up on one of the dice, the player's turn is over and they get a zero for that turn. If ones come up on both dice, the player's accumulated total goes back to zero.
